

The situation of internal and external education and training on integrity management

Our company actively promotes the core values of integrity and honesty, and in the fiscal year 112, we organized internal and external education and training related to integrity management issues. The purpose is to implement the integrity management policy and prevent dishonest behavior. The course content includes operational procedures and behavioral guidelines for integrity management, accounting systems and internal control systems, analysis and application of corporate financial information for decision-making, compliance with integrity management regulations, ethical behavior guidelines, how directors can fulfill their duty of care and fiduciary duty faithfully, confidentiality operations, public operations, and handling of violations, among other relevant topics. A total of 432 participants were enrolled in the courses during the fiscal year 2023, accumulating a total of 506 person-hours.
